

AGENDA

October 1st, 2008 – Vail Colorado

Watersheds: Capacity Building and Nonpoint Source Funding Process Workshop

8:30 - 8:40 – Introductions

8:40 – 10:10 – CDPHE Nonpoint Source Management Area - What you need to know when applying for funding under Clean Water Act Section 319. Key federal and state requirements will be addressed. We will also address resources and provide general information on how to be successful in pursuing, planning, developing and implementing 319-funded projects.

10:10 – 10:30 – Break

10:30 – 12:00 – Trees, Water and People – In order to improve their 319 projects and other initiatives, local watershed groups need to constantly build their organizational capacity. This session will help participants: 1) understand the importance of building capacity, 2) identify areas where they would like to strengthen their group, 3) formulate strategies for addressing their priority needs, and 4) access TWP programs and services.
